Sheriff Rick Bradshaw  
Palm Beach County Sheriff's Office  
3228 Gun Club Road  
West Palm Beach, Florida

Dear Sheriff Bradshaw,

Allow us to introduce to you the Palm Beach County General Jural Assembly (PBCGJA). The PBCGJA consists of men and women from all walks of life, age, religion, sex, etc. in Palm Beach County. We come together to unify, respectfully communicate and listen to one another, to work together as lawfully assembled, to move from victimization and control to perfect self-government, to share local and current events happening in our county, to share educational information that pertains to PBC and the Assembly and to be supportive and help one another as we move along. We are passionate law-abiding people who have enormous hearts who use our talents, skills and knowledge to help re-create and sustain a law-abiding common law government that our forefathers envisioned for us all. We are the explicit voice of the prodigy of "We the People".

We would like to partner with you and your deputies and stand shoulder to shoulder with you in support of common law. Historically, one of the most critically important person tasked with the duty to protect American Liberty is the Constitutional Sheriff. Today more than ever with the tyranny of an ever-expanding and intrusive local, state and federal government and the erosion of Liberty's protections, we are often threatened in our very homes and neighborhoods. One just has to look at the October 4, 2021, memo by the U.S. Attorney General that calls on the FBI to address violent threats against school officials and teachers to prosecute the parents of school age children under the Patriot Act as domestic terrorists. Shocking, to say the least. Now more than ever we look to you to intercede when local, state and federal forces overstep their constitutional authority and power and violate their oath of office. Now more than ever we look to you to help protect our homes, our property, our lives, and our families from the acts of those who either wittingly or unwittingly violate our God-given rights that are enshrined in our Constitution and Bill of Rights.

Sincerely,

*Palm Beach County Jural Assembly*
