**Request to open investigation
into Palm Beach county Sheriff Rick Bradshaw's
treason and crimes against humanity**

Allow us to introduce to you the Palm Beach County General Jural Assembly (PBCGJA). First formally re-established county level Common Law Jural Assembly in Florida. The PBCGJA consists of men and women from all walks of life, age, religion, sex, etc. in Palm Beach County. We come together to unify, respectfully communicate and listen to one another, to work together as lawfully assembled We The People.

We would like to partner with you and stand shoulder to shoulder with you in support of our Constitutional rights and common law in Palm Beach county. Today more than ever with the tyranny of an ever-expanding and intrusive local, state and federal government and the erosion of Liberty's protections, we are often threatened in our very homes and neighborhoods.

Unfortunately we have very unconstitutional Sheriff (Rick Bradshaw) in Palm Beach county.

He does not defend Constitution and Unalienable Rights. He, in fact ,breaks his Oath of Office (treason) and suspended Constitution in our county for last 2 years.

Attached are all documents we served him – Petitions to Redress Grievances, Writ of Instructions, Affidavit, requests to meet – he ignored them all (you can also view them on our website's Public Records section):

As he committed treason and crimes against humanity with breaking his Oath of Office, suspending Constitution and our Unalienable Rights that falls under military code of justice.

We request from you that you open investigation into Palm Beach county Sheriff Rick Bradshaw, hold him accountable for treason and crimes against humanity he committed and restore Constitution in our county.
