OPEN LETTER TO THE U.S. MILITARY

We the people ask you to help us take back our country and our sovereignty from the corporations, the FEDERAL RESERVE bankers and the corrupt politicians.

They don't represent We The People anymore. They must be fired!!!

We are tired of being slaves and paying taxes that our government wastes. Our dollars are not backed by gold. Our dollars are fiat currency; worthless paper from the illegal and corrupt FEDERAL RESERVE with no value!!!

We want the 2020 election corrected. We know you all know Joe Biden did NOT win.

We have a duty to dissolve a tyrannical government when all other measures have been exhausted. We have tried:

- Protests on January 6 to voice our opposition of the illegal electors sent to congress;
- Peaceful Convoys;
- A variety of protests in opposition to federal and state draconian COVID mask mandates;
- Attending school board meetings and courageously voicing our opposition against draconian COVID mask mandates, mRNA gene therapy mandates; transgender and diversity/inclusion/equity/ CRT curriculum;
- Attending county commissioner meetings in opposition of draconian COVID mandates;
- Participating as social media warriors for freedom and truth.

Dinesh D'Souza brilliantly exposes the illegal ballot trafficking in the blockbuster hit 2000 Mules. In the documentary *Rigged: The Zuckerberg Funded Plot to Defeat Donald Trump*, Jason Killian Miller demonstrates how Zuckerberg funded democrat strongholds with an illegal and unconstitutional drop-box ballot operation during the 2020 election. And finally, Mike Lindell built a case against the Dominion servers during the August 2021 Cyber Symposium.

Many Americans have lost friends and family members due to Covid. Many Americans have been harmed either temporarily or permanently as a result of taking the mRNA gene therapy that was falsely sold to the public as a safe vaccine despite serious departures in testing and disclosing of adverse effects of toxic vaccines, and by sharing the horrible truth that has been hidden from We The People for decades. Kennedy assassination and 9/11 are just two of hundreds of examples we could give.

We are tired of sending our American sons and daughters to fight wars we did NOT sign up for!!!! We do NOT want to pay for wars unless our enemies attack us.

We want our country back and demand you act on our behalf. We never agreed to be classified as a mini corporation at birth. We are free men and women. We never agreed to be traded like cattle while others unwittingly make \$\$\$ off us.

We refuse to be slaves to the deep state one moment longer!

We want the National Economic Security and Recovery Act (NESARA) implemented as soon as possible.

We want to return to a small government as outlined in the U.S. Constitution. In order for this to happen these criminals that occupy our White House and many more areas of our government must be prosecuted for their crimes against our country, our children and for many generations to come.

We the people have spoken.

We command you to ACT NOW!!!! Remove illegitimate government owned by foreign agents and hold new SECURE elections!

Before we no longer have a country.

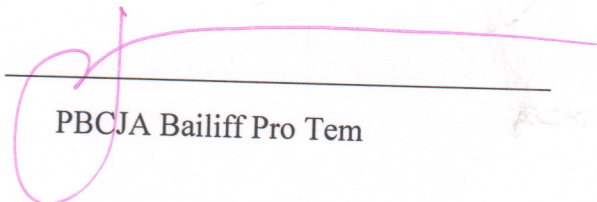

Sincerely

We The People
